CheckINN Direct Offers New Ways To Save On Business Lodging

Members Can View Hotel Savings For Every Stay & Add Multiple Credit Cards to Account

Wichita, Kansas (Aug. 7, 2009) – Corporate Lodging Consultants (CLC), the leading provider of customized lodging programs for business, is offering its CheckINN Direct members the opportunity to see just how much they save every time they check into a hotel using their CheckINN Card. It's part of several new enhancements to the CheckINN Direct business lodging program.

Now the savings are displayed for every hotel in the CheckINN Direct network when members conduct online hotel searches at www.CheckINNcard.com. Members simply enter the rate range that meets their travel budget to view results that list the hotel's Lowest Published Rate, the CheckINN Direct member rate and the daily savings.

"We're making it easier than ever to see exactly what you save with CheckINN Direct," said Kyle Rogg, CLC senior vice president of Business Development. "Members can pick their price when they search for a hotel, check out the daily savings by hotel, and track what they save per hotel stay."

Hotel rates are updated weekly so members can find current rate information about their daily savings every time they search for a CheckINN Direct hotel.

Members also now have the ability to add multiple credit cards to a CheckINN Direct Account. This simplifies account management and tracking for any business that has multiple travelers using CheckINN Direct.

CheckINN Direct allows small to medium-sized businesses to enjoy the same discounted lodging rates as large companies, offering significant savings on hotel stays at more than 8,500 hotels nationwide. The lodging program provides 24-hour traveler support 365 days a year, and no reservations are required at participating hotels.

"We're continually looking for ways to make CheckINN Direct as effective as possible for our members," Rogg said. "These latest enhancements will help our members easily and quickly find the hotels where they can save the most."

Over the last 30 years, CLC has built a network of thousands of hotels nationwide to help businesses with their specific lodging needs, while offering state-of-the-art data management and payment processing systems to manage client billings and reports. These advantages provide clients with significant savings and increased visibility into lodging costs.

Wichita-based CLC was acquired by FleetCor, the Global Fleet Card Company, in April 2009. CLC and FleetCor share the same key principle: helping businesses save money on purchases made by their traveling workforces.

Businesses interested in CheckINN Direct can sign up for an account at www.CheckINNcard.com.
